1. Place the order through Buylink.
2. Cash the rebate check.

Cash back with every purchase order.
We think it's about time the buyer got the compensation. We're giving you a cash back rebate on every item listed. The highest rebate amounts go to the customers who purchase the most items from the most vendors.

It's on top of your existing vendor discounts.
If you don't have an existing deal from a vendor, you do now - add thousands of them on Buylink. If you already do, add it to your Buylink purchase order for a 2-7 percent rebate on top of it.

The more you order, the more you get back.
Rebates range from 2-7% based on the volume you've purchased in the last 60 days. Each online purchase order counts toward your Total Rebate balance. You'll find your current rebate status in the upper-right corner of your retail homepage.

Prices are catalog list.
All prices are the vendor's catalog list. We're just sending you back part of the commission.

Direct to vendor deals included.
Worked out something special with a vendor? Just enter in the vendor's discount amount on the order. You'll get both if you place the order here.

When do I get my commission?
We'll send you a check for your qualified rebate amount once a month. As soon as we receive the vendor fee for your order, our rebate will be applied and we'll add the applied amount to your monthly rebate check.

How about my current suppliers?
Invite your existing suppliers to list their products on Buylink for FREE. When you place online purchase orders with the vendors, you'll get the highest rebate - plus any existing discounts you might already have.
